# PLAY • SCORE • COMPETE

## GROWING GOLF **PLAY**

Our monthly 'Play' sessions have been created to help players make the transition from practice to the real thing! Our team of PGA Professionals, assistants and volunteers will supervise the children for a two hour on-course playing session.

We will teach the children how to play on the course, understand the rules, develop their skills and have a lot of fun! Usually hosted on Sunday afternoons, these sessions are available to any Growing Golf Academy member who needs to increase their experience of playing on the golf course.

& DREAM TEAM**

## GROWING GOLF **SCORE**

Our 'Score' sessions are for players who are ready to play 9 holes and keep score. These sessions are ideal for juniors who want to start keeping track of their scores and gain an official handicap.

Our coaches will guide them through nine holes and help them with keeping score, decision making, and general on-course education.

'Score' sessions are usually held at Poult Wood Golf Club on the 9-hole course which is ideal for junior golf. The short 1,221 yard course creates the perfect challenge for young players.

## GROWING GOLF **COMPETE**

Our 'Compete' sessions are for the more experienced player who is ready for competitive golf. These sessions vary in format from 'Ryder Cup' style team events to individual competitions. These are ideal for junior players who already have a handicap (or are working towards one) and who aspire to playing in future club, county and national events.

These events are hosted across our different venues to allow players the chance to experience varying course layouts and challenges.
